Healthcare Operations & Strategy Consultant

## Healthcare Facility Setup & Licensing

### Build Your Healthcare Facility on a Strong Foundation

Opening a healthcare facility requires more than securing premises and hiring staff. Success depends on proper planning, regulatory compliance, operational readiness, and a structured approach from concept to licensing.

Our Healthcare Facility Setup & Licensing service provides end-to-end support for healthcare entrepreneurs, investors, doctors, NGOs, and organizations seeking to establish compliant and sustainable healthcare facilities in Kenya.

#### **Our Support Includes:**

- Healthcare facility feasibility assessment
- Facility planning and service mix development
- Space planning and workflow recommendations
- Regulatory guidance and compliance requirements
- Licensing support and application coordination
- Inspection readiness preparation
- Standard operating procedures (SOPs) guidance
- Staffing structure recommendations
- Operational planning and patient flow design

#### **Suitable For:**

- Medical Centres
- Clinics
- Specialist Practices
- Diagnostic Centres
- Laboratories
- Pharmacies
- Day Surgery Centres
- Hospitals

#### **Benefits**

- ✓ Avoid costly compliance mistakes
- ✓ Reduce licensing delays
- ✓ Improve operational efficiency from day one
- ✓ Ensure regulatory readiness
- ✓ Build a patient-centered facility designed for growth

#### **Investment**

**Starting from KES 150,000**

(Final fee depends on facility size, services offered, project scope, and location.)

### ***Let's Build It Right From The Start***

Consulting services provide strategic guidance and recommendations. Regulatory approvals, licensing decisions, construction timelines, and operational outcomes remain subject to applicable laws, authorities, and client implementation
